

INNERDUCT SEALS

58100 series

DCD offers two types of seals. The Innerduct Seal is a screw-in type that requires one product for each duct size. The second type is a Universal Seal which is a tapered product suitable for all duct sizes from 1" to 2". This is for use on short distance blowing where simply holding the Seal against the end of the duct will do the job and save time.

The Kit comprises all four Innerduct Seals plus the Universal Seal. A Control Valve and Rope Guides are also included.

Part No.	Description	Nom. Duct Size	Weight
58100-000	UNIVERSAL SEAL	1" - 2"	1.5 lb.
