

DUCT SEALS

58200 series

The DCD Duct Seals are unique for several reasons. The expandable seals are colour coded for easy recognition. They are made from a specially formulated polyurethane designed to give maximum sealing and expansion properties.

While a single seal is difficult to align properly, a double seal is expensive.

The DCD unit has a single seal, but supports it with an alignment washer. Economical but effective. All seal sizes fit over the same Handle Assembly and changing the size of seal used is a breeze. Just unscrew two nuts, slide off one Seal Kit and slide on the next one.

The end of the unit is fitted with a quick release coupling. Each Seal Kit comes complete with the polyurethane seal, two compression washers and one stabilizing washer. Just order the size of seal you need plus one Handle Assembly. Next time, just order the new size of seal you need.

Handle Assembly

Part No.	Weight
58200-000	2.50 lb.

Seal Kits

Part No.	Nominal Duct Size	Min. Duct Inside Dia.	Max. Duct Inside Dia.	Colour Code	*Max. Tested Pressure	Weight
58200-200	2"	1-13/16"	2-5/16"	Green	40 psi.	0.27 lb.
58200-250	2-1/2"	2-3/16"	2-3/4"	Red	35 psi.	0.56 lb.
58200-300	3"	2-13/16"	3-3/8"	Yellow	30 psi.	0.92 lb.
58200-350	3-1/2"	3-1/4"	3-13/16"	White	25 psi.	1.23 lb.
58200-400	4"	3-5/8"	4-1/4"	Blue	20 psi.	1.60 lb.
58200-500	5"	4-1/2"	5-1/8"	Orange	15 psi.	2.70 lb.
58200-600	6"	5-3/8"	6-1/16"	Black	10 psi.	3.80 lb.

* All seals have been tested to at least 15% higher than stated values. The actual pressure attained may depend on the condition of both the duct and the Seal Kit. Care should be taken at all times when working with pressurized systems.
